More line patterns | Aiming High Teacher Network

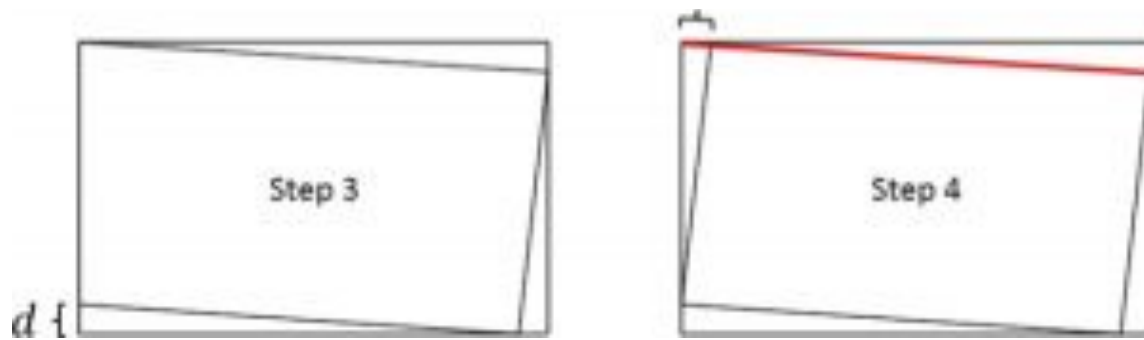

toni

~1 minute

- To draw this pattern, first draw a rectangle.
- Choose a small distance d , mark this distance along the edge of the rectangle and draw a straight line from one vertex of the rectangle to this point as in Step 1.
- Mark the distance d along the next edge and draw the straight line as in Step 2.
- Repeat this construction drawing straight lines spiralling inwards marking the distance d along the next straight line that you will meet, as shown in Steps 3 and 4.

e) Continue this construction, drawing straight lines spiralling inwards, marking the distance d along the next straight line that you will meet and working your way towards the centre of the pattern.
